Vibrant Mind-Body-Spirit Immersion into Hula Pele

Kekuhi Kanaka'ole

Ulu Ka 'Ōhi'a

Aloha to you! I am KekuhikuhipuoneonaaliioKohala Kanae Kanahele Kealiikanakaolehaililani.

Mo'opuna to the fire and the forest. Granddaughter of Edith Kekuhi & Luka Kanakaole, daughter of Pualani Kanakaole & Edward Kanahele, mother of Kaumakaiwa, Ulumauahi, Kauilanui, Keahika'ai'ohelo and Kekuhi Haililani, wife of Taupouri Tangarō, and I am Tutu to Hinamanoulua'e, Kauahi Kauwe, and Nakapuahi Kamakaohua. Ola! Life!

My paternal family ties are to Keleikini of Kaua'i, Nauoho of Hana, Maui. My maternal family ties are to Ahiena of Puna, Kealiikanakaole of Ka'u, and Kanaele-Kenao of Kohala.

The 1/4 of me that is not Hawai'i comes from beyond the Hawaii horizon reaching back to Milfordhaven, Wales. My lineage taps into the migratory spirit of the Pele, the movement and the surfacing of magma. This relationship to the building of terra firma extends my lineage to the building of the natural environment - the mountains, forests, and springs; I am also the builder of heiau & sacred spaces where people connect to their environmental selves. How do I know? The information is the fabric of our names. My passions are manifest through these lineal connections.

I am creator & owner of Lonoa Honua a business entity that houses Hālau 'Ōhi'a, the first full service Hawai'i Stewardship Training programs in Hawai'i; Ulu Ka 'Ōhi'a, Hula-Consciousness Seminar, and the online Charm of Mele course. I am a Kumu Hula ritually 'uniki of Halau O Kekuhi. I was Assistant Professor of Hawaii Life Way at Hawaii Community College. I teach others how to engage in their own connection to the Hawaii landscape; I sing, compose, chant, dance and I am in love with Hilo. Learning about and engaging with my relations from Hawaiiinui (this Hawaii) to Hawaii-iki (the Hawaii within) to, Hawaii pāmamao (and the Hawaii beyond the horizon), excites me! Cultivating relationships and rediscovering ecological connections for myself and others is my gift and my passion.

Vibrant Mind-Body-Spirit Immersion into Hula Pele

Taupōuri Tangarō

Unukupukupu

Dr. Taupōuri Tangaro is an 'Ūniki graduate of Hālau O Kekuhi (2007), Kumu Hula of Unukupukupu, and a Professor of Hawaiian Studies at Hawai'i Community College, Hilo Hawai'i. He is lead faculty member in the delivery of the Hawaiian Studies Associate in Arts Degree Hula Focus. He is celebrated by the University of Hawai'i System for his stellar ability to position Hawaiian culture as a platform to strengthen spiritual wellbeing in diversified communities. He is recognized by the hula community for his strong hula foundations, his innovations, and his authenticity in hula ritual. He resides in Pana'ewa with his wife Kekuhi Keal-i'ikanaka'ole, children and grandchildren.

The first time I experienced hula I felt it's spirit. I felt the spirit of hula even before I knew what the word spirit meant. I was four years old.

Many years later I learned that the origin of hula was when an enchanted spirit-wind blew over the ocean currents of Nānāhuki and into the forest groves of Hā'ena, animating the entire district of Kea'au, Hawai'i in dance. When Hi'iaka experienced this nature-dance she fell into enchantment and was caught up in the spirit-animation and began herself to dance this nature dance. When Pele experienced Hi'iaka's dance, she herself was entranced into a

deep and profound sleep, triggering her spirit to travel very, very far. To me, all this is hula.

Hula allows one to recognize the spirit of nature in all life (including human communities). We use hula to tell our dreams, to communicate and celebrate our histories, our emotions, our journeys. Hula allows the spirit to journey far into our past and further into our future. Under all this, however, the core of hula is anchored in the enchanted dance of nature.
